Nuclear Safety

Volume 14

The page range for each of the six issues of Vol. 14 is as follows:

No. 1, pages 1 to 78
No. 2, pages 79 to 164
No. 3, pages 165 to 266
No. 4, pages 267 to 408
No. 5, pages 409 to 562
No. 6, pages 563 to 709

Accidents
(*See also* Occurrences and specific reactors by name and type)
emergency planning for radiation, in New Jersey, 563-72
Advisory Committee on Reactor Safeguards
Chairman, election of, 239
membership, 239
public participation in meetings of, 385
report on seismic research, 533-34
Vice-Chairman, election of, 239
Air cleaning
review of conference on, 111-19
Air filters
in-place testing of, announcement of workshop on, 78
Air pollution
management and control of, announcement of Summer Institute on, 664
Anders, William A.
appointment as AEC Commissioner, 679-80
Assistant General Manager
establishment of position of, 526
Assistant General Manager for Biomedical and Environmental Research and Safety Programs
establishment of position of, 524-26
Assistant General Manager for Physical Research and Laboratory Coordination
establishment of position of, 526
Atmosphere
radioactive contaminant behavior in, announcement of symposium on, 375
Atomic Bomb Casualty Commission
origin and findings of, 651-59
Atomic Energy Commission
Chairman, appointment of, 236
membership appointment, 679-80
Atomic Safety and Licensing Appeal Board Panel
Chairman, appointment of, 137
membership, 137

Books
(*See also* Handbooks)
Measurement of Low-Level Radioactivity, review of, 355
Neptunium-237 Production and Recovery, review of, 314
Nuclear Power and the Environment, availability, 670
Radiation Dosimetry: Electrons with Initial Energies Between 1 and 50 MeV, review of, 76-77
Reliability Technology, review of, 322-23
The Environmental and Ecological Forum 1970–1971, review of, 74-76
Bowden, Marion A.
appointment as Director of Office of Civil Rights Compliance, 536
Buildings
design of earthquake-resistant, review of meeting on, 1-5

California
environmental and effluent monitoring around nuclear facilities, cooperative arrangement with AEC for, 136-37
Civil Rights Compliance Office
establishment of, 526
Conferences and meetings
(*See also* Symposia)
on American industrial hygiene, announcement of, 40
on confinement of radioactivity, 506
on earthquake-resistant design of engineering structures, review of, 1-5
on engineering problems of fusion research, announcement of, 290
on fast reactor safety, announcement of, 123, 617
on industrial hygiene, announcement of, 663
on packaging and transportation of radioactive materials, review of, 274-89
on radiation protection, announcement of, 585
Twelfth AEC Air-Cleaning Conference, review of, 111-19
on water-cooled reactor safety, announcement of, 40
on water-reactor safety, review of ANS, 439-46
Connecticut
environmental and effluent monitoring around nuclear facilities, cooperative arrangement with AEC for, 531-32

Dosimetry
book: *Radiation Dosimetry: Electrons with Initial Energies Between 1 and 50 MeV*, review of, 76-77
Doub, W. O.
speech on standards in nuclear industry, review of, 135-36

This index was prepared by Theodore F. Davis of AEC's Technical Information Center, Oak Ridge, Tenn.

Doub, W. O.
speech on standards in nuclear industry, review of, 135-36

This index was prepared by Theodore F. Davis of AEC's Technical Information Center, Oak Ridge, Tenn.

Earthquakes
seismic effects of, design of structures resistant to, review of meeting on, 1-5
Electrical systems
sneak-circuit analysis in, computer-aided method for, 461-68
Emergency core-cooling system
[*see* as subheading under Reactors (water-cooled)]
Energy crisis
review of President Nixon's statement on, 534
role of AEC in, speeches on, 528-29
Energy Research and Development Administration
AEC Chairman Ray's testimony on proposed structure of, 681-82
Environment
book: *Nuclear Power and the Environment*, availability of, 670
effects of nuclear power plants on, review of regulations on, 6-13
effects of power-reactor fuel cycle on, review of survey report on, 133
release of radioactive effluents to, progress summary of research and development projects on, 126-27, 381-82, 673-74

Flaherty, John J.
appointment as Assistant General Manager, 526
Florida
environmental and effluent monitoring around nuclear facilities, cooperative arrangement with AEC for, 531-32
Fuel cycle
environmental effects of 1000-MW(e) LWR, review of survey report on, 133
shipping accidents in, probability and consequences of, 597-604
Fuel-fabrication plants
license-fee schedule, revision of, 240
Fuel-reprocessing plants
license-fee schedule, revision of, 240
licensing and regulation, 52, 55, 59, 140, 143, 147, 242, 245, 250, 388, 391, 396, 400, 538, 541, 545, 688, 691
radioactive-aqueous-waste management, 482-505
safety guides, 530
Fusion
research on, announcement of conference on engineering problems in, 290

Germany
reactor safety standards in, development of, 181-86

Gossick, Lee V.
appointment as Assistant Director of Regulation, 239-40

Handbooks
Nuclear Power Reactor Instrumentation Systems Handbook, availability of, 469

Illinois
environmental and effleunt monitoring around nuclear facilities, cooperative arrangement with AEC for, 136-37
Indexes
availability of cumulative permuted title, to *Nuclear Safety*, 481
Industrial Relations Office
establishment of, 526
Inspections
changes in AEC procedures for, GAO recommendations on, 386
International Commission on Radiological Protection
dose limits, 90
International Programs Division
reporting of, changes in, 526
Irradiation facilities
license-fee schedule, revision of, 240

Kouts, Herbert J. C.
appointment as Director of Division of Reactor Safety Research, 526

Licensees
license violations, imposition of fines for, 530-31
license violations, criteria for enforcement actions for, 50-51
Licenses
fee schedules for nuclear facilities, revision of, 240
Licensing and regulations
changes in, 72-73, 162-64, 261-64, 405-8, 560-62, 707-9
fuel-reprocessing plants, 52, 55, 59, 140, 143, 147, 242, 245, 250, 388, 391, 396, 400, 538, 541, 545, 688, 691
power reactors, 51-70, 139-61, 241-60, 387-404, 535-58, 686-706
Liverman, James L.
appointment as Assistant General Manager for Biomedical and Environmental Research and Safety Programs, 524-26

Maine
environmental and effluent monitoring around nuclear facilities, cooperative arrangement with AEC for, 241

Mangelsdorf, Harold G.
election as Chairman of ACRS, 239
Medicine
(*See also* Nuclear medicine)
radiation exposure in, NAS report on low-level, 134-35
radiation exposure in, review of symposium on health-physics aspects of, 341-55
X-ray exposure of radiation workers, importance of record keeping on, 220-25
Mines
radon and radon-daughter-product removal from, problems and techniques for, 643-50
Mississippi River Basin
radiation exposure to population of, in year 2000, report on, 134

National Environmental Policy Act of 1969
implementation of, AEC and EPA responsibilities for, 237
Naval Reactors Division
reporting of, changes in, 526
Nemzek, Thomas
appointment as Director of Division of Reactor Research and Development, 527
Neptunium-237
production and recovery of, review of book on, 314
New Jersey
environmental and effluent monitoring around nuclear facilities, cooperative arrangement with AEC for, 241
nuclear emergency planning in, 563-72
Nixon, Richard M.
statement on energy crisis, review of, 534
North Carolina
environmental and effluent monitoring around nuclear facilities, cooperative arrangement with AEC for, 531-32
Nuclear Education and Training Division
transfer of functions of, 526
Nuclear facilities
inspection of, changes in AEC procedures for, 386
license-fee schedules, revision of, 240
Nuclear industry
standards in, review of W. O. Doub speech on, 135-36
Nuclear medicine
(*See also* Medicine)
physical aspects of, MIT course on, 94
Nuclear power
management of, MIT training course on, 123

Nuclear Safety Information Center
activities of, progress summary of, 127-28, 382, 674
information programs, 127-28, 382, 674
reports of, availability of, 77-78, 110, 289, 468-69

Occurrences
Dow TRIGA, 372
Dresden 2, 122, 513
La Crosse, 37-38, 228
Maine Yankee, 38
Millstone Point 1, 121-22, 226-27, 373, 513
Monticello, 37, 512
Nine Mile Point 1, 227-28
Oyster Creek, 373-74, 513
Pilgrim, 120-21, 227, 513, 669
Point Beach 1, 228-29
Quad Cities, 513-14
Robinson 2, 121-22, 229
Surry 1, 38-39, 121, 374
tabulation of nuclear reactor, from June 1 through Aug. 22, 1973, 664-68
University of Texas TRIGA, 515
Vermont Yankee, 374, 514-15, 668-69
Zion 1, 669-70
Ozone
formation by radiolysis of oxygen-contaminated liquid nitrogen, calculation and measurement method for, 446-51

Personnel
radiation exposure records, importance of including medical X rays in, 220-25
Publications
Nuclear Safety, availability of cumulative permuted-title index to, 481
Regulatory Adjudication Issuances, availability of, 385-86

Radiation accidents
(*see* Accidents)
Radiation exposure
ICRP dose limits, 90
medical, reivew of symposium on health physics in, 341-55
medical low-level, NAS report on, 134-35
records of personnel, importance of including medical X rays in, 220-25
Radiation injuries
at Hiroshima and Nagasaki, summary of ABCC studies on, 651-59
Radiation protection
First Asian Congress on, announcement of, 585
Radioactive materials
license-fee schedule, revision of, 240
packaging and transportation of, review of conference on, 274-89
shipping accidents, probability and consequences of, 597-604
Radioactive wastes
management of aqueous, from AEC fuel-reprocessing operations, 482-505
report on leakage at Hanford, summary of, 680-81
research and development projects on, progress summary of, 126-27, 381-82, 673-74
Radioactivity
confinement of, announcement of Seventh International Congress on, 506
measurement of low-level, review of book on, 355
Radioisotopes
environmental behavior of released, announcement of symposium on, 20
Radon and radon-daughter products
removal from uranium mines, problems and techniques for, 643-50
Ray, Dixy Lee
appointment as Chairman of AEC, 236
Reactor control systems
automation of, obstacles to complete, 95-104
design of panels for, human engineering factors in, 21-26
Reactor fuels
(*See also* Fuel cycles, Fuel-fabrication plants, and Fuel-reprocessing plants and specific reactors by name and type)
densification in light-water reactors, completion of study on, 133
management of, announcement of meeting on, 123
Reactor Research and Development Division
Director, appointment of, 526
Director, retirement of, 526
Reactor safety
(*See also* specific reactors by name and type)
principles and standards of, review of IAEA symposium on, 428-38
training courses on, announcement of UKAEA, 20, 559
Reactor Safety Research Division
establishment of, 526
Reactors
protection systems, philosophies and instrumentation, reivew of NSIC report on, 468-69
Reactors (boiling-water)
power-level reduction, due to possible fuel densification, 679
Reactors (Browns Ferry)
protection system for, evaluation of, 605-17
Reactors (Dow TRIGA)
reactivity increase in, following fuel and control-rod inspection and reinsertion, 372
Reactors (Dresden)
Unit 2, isolation-valve failure, 513
Unit 2, steam-line flow-restrictor failure, 122
Reactors (Fast)
safety of, announcement of meeting on, 123, 617
safety of, progress summary of research and development projects on, 128-31, 378-81, 674-78
Reactors (FFTF)
containment system, design and evaluation of, 470-81
safety of, 79-89
Reactor (gas-cooled)
safety of, progress summary of research and development projects on, 131-32, 381, 678
Reactors (Ginna)
protection system for, evaluation of, 605-17
Reactors (HGTR)
safety-design bases of, 618-33
Reactors (K)
activity confinement and decontamination after failure of Sb–Be source rod in, 362-72
Reactors (La Crosse)
recirculation-flow anomaly in, 37-38
shutdown from loss of feedwater flow control, 228
Reactors (light-water)
fuel densification in, 356-57
Reactors (LMFBR)
accident analysis, phenomenological research in, 305-13
fuel behavior in, under accident conditions, 452-58
prompt-critical excursions in, factors limiting, 201-5
safety of, announcement of conference on, 617
sodium release from, consequences of accidental, 325-39
Reactors (Maine Yankee)
water pump in, guide-vane failure in primary, 38
Reactors (Millstone Point)
isolation-valve failure, 513
light-plane-crash incident, 121

Unit 1, control-rod-drive accumulators, failure of nickel and chromium plating in, 373
Unit 1, saltwater leakage into condenser hot well, 122, 226-27
Reactors (Monticello)
dry-well pressurization from turbine trip in, 37
isolation-valve failure, 513
Reactors (Nine Mile Point)
Unit 1, dry-well pressurization, 227-28
Reactors (Oconee)
protection system for, evaluation of, 605-17
Reactors (Oyster Creek)
isolation-valve failure, 513
relief-valve failure, 373-74
Reactors (Palisades)
protection system for, evaluation of, 605-17
Reactors (Pilgrim)
fish kill at, 669
isolation-valve failure, 513
relief-valve failure, 120-21
safety-valve malfunction, 227
Reactors (Point Beach)
Unit 1, fuel-rod leakage in, 228-29
Unit 2, fuel densification in, 358-60
Reactors (power)
accidents, review of computer codes for analysis of disassembly, 91-94
air-cleaning systems, sizing criteria for, 634-42
construction of, availability of ANSI standard for housekeeping during, 515
construction of, review of reasons for delays in, 47-48
control panels for, human engineering factors in design of, 21-26
control-rod-system failures, analysis of, 315-22
control systems for, obstacles to complete automation of, 95-104
core analysis of, announcement of workshop in, 408
design of earthquake-resistant, 5
environmental effects of, review of regulations on, 6-13, 165-78
environmental monitoring of, 105-110
environmental reports on, guide to preparation of, 48-49
fuel cycle, rule-making hearing on environmental effects of, 236-37
fuel-cycle effects on environment, review of survey report on, 132-33
instrumentation systems, availability of handbook on, 469
licensing and regulation of, 51-70, 139-61, 241-60, 387-404, 535-58, 686-706
license-fee schedule, revision of, 240
materials and component failures, during 1967-71, review of, 507-12
pipeline break in, assessment of possibility and effects of main steam or feedwater, 237
piping systems, availability of ANSI standards for, 515
protection systems for, comparative evaluation of, 605-17
quality-assurance procedures for, establishment of, 532
safety of, availability of AEC study on, 532-33
safety of, comparison of coal- and oil-fired plants with, 409-24
safety of, comparison of oil-fired plants with, 267-73
safety of, earthquake aspects of, 586-95
safety of, reivew of Lapp report to Illinois Commerce Commission on state responsibilities for, 574-76
safety-analysis reports for, issuance of standard format for preparation of, 136
safety guides, 529-30
safety-related occurrences at, between June 1 and Aug. 22, 1973, tabulation of, 664-68
safety standards, activities of the German Standards Committee on on, 181-86
siting practice for, relation of population with, 576-84
standardization of, 384
standby emergency power systems of early, review of, 206-19
switch failures in, during the period 1964 to March 1973, review of, 660-63
turbine failure in, damage probability from, 187-200
Reactors (pressurized-water)
loss-of-coolant accident, by hypothetical vessel rupture, analysis of, 291-303
Reactors (Quad Cities)
explosion in off-gas system, 513-14
isolation-valve failure, 513
Reactors (Rapsodie)
operational incidents at, safety experience gained from, 27-36
Reactors (research and test)
safety guides, 530
Reactors (Robinson)
Unit 2, power-operated relief-valve failure, 229
Unit 2, xenon oscillations, 121-22
Reactors (Stade)
loss-of-coolant accident in, probability analysis of, 14-20
Reactors (Surry)
Unit 1, containment pressurization during "hot-shutdown" period, 121
Unit 1, steam-release accident at, 38-39
Unit 2, contamination by Surry 1, 374
Reactors (University of Texas TRIGA)
excess reactivity in, 515
Reactors (Vermont Yankee)
explosion in off-gas system of, from lightning strike, 668-69
radioactivity release due to leaky fuel elements, 514-15
relief-valve failure, 374
Reactors (water-cooled)
ECCS, concluding statement of the Regulatory Staff on, 527-28
ECCS, review of supplemental AEC Regulatory Staff testimony on, 132-33
ECCS draft statement, EPA comments on, 386
ECCS rule-making hearing, termination of, 680
fuel densification in, completion of study on, 133
fuel-element performance in, study on, 49-50
safety of, announcement of meeting on, 40
safety of, progress summary of research and development projects on, 41-46, 124-26, 230-35, 376-78, 517-24, 671-73
safety of, review of ANS meeting on, 439-46
safety guides for, 49, 136, 237-38
Reactors (Wurgassen)
loss-of-coolant accident in, probability analysis of, 14-20
Reactors (Zion)
unit 1, shutdown of, from failure to control steam-generator water level, 669-70
Regulation
Director of, appointment of, 239-40
Regulatory guides
development of, 683-84
Ritzmann, Robert W.
appointment as Acting Director of Office of Industrial Relations, 526
Rosenthal, Alan S.
appointment as Chairman of ASLAB Panel, 137

Safety guides, 529-30
Schlesinger, James R.
testimony before the 1973 JCAE hearings, summary of, 235-36
Seismic research
ACRS report on, 533-34

Shaw, Milton
retirement of, 527
Standards
nuclear industry, review of Commissioner Doub's speech on, 135-36
Stratton, W. R.
election as Vice-Chairman of ACRS, 239
Structures
design of earthquake-resistant, review of meeting on, 1-5
Switches
failures in power reactors during the period 1964 to March 1973, review of, 660-63
Symposia
(*See also* Conferences and meetings)
on environmental behavior of radionuclides released in the nuclear industry, announcement of, 20
on experience from operating and fueling of power reactors, announcement of, 266
on health physics in the healing arts, review of, 341-55
on physical behavior of radioactive contaminants in the atmosphere, announcement of, 375
on principles and standards of reactor safety, review of IAEA, 428-38

Teem, John M.
appointment as Assistant General Manager for Physical Research and Laboratory Coordination, 526
Thermonuclear reactions
(*see* Fusion)
Training courses
on nuclear fuel and power management, 123
on physical aspects of nuclear medicine, 94
UKAEA Reactor Safety Courses, announcement of, 20, 559
Turbines
failure in nuclear power plants, damage probability from, 187-200

Uranium mines
radon and radon-daughter-product removal from, problems and techniques for, 643-50

Vermont
environmental and effluent monitoring around nuclear facilities, cooperative arrangement with AEC for, 241
Virginia
environmental and effluent monitoring around nuclear facilities, cooperative arrangement with AEC for, 531-32
Virginia Electric & Power Company
license violations, imposition of fine for, 530-31

Wisconsin
environmental and effluent monitoring around nuclear facilities, cooperative arrangement with AEC for, 241

X-Ray Engineering Company
license violations, imposition of fine for, 530-31
